ALLEGED VIOLATIONS

The information provided in the previous petition, filed as docket entry No. 663, has been amended as follows:

Violation No. 1 - has been amended to include additional positive drug tests.

The probation officer believes that the offender has violated the following condition(s) of supervision:

Violation No. Nature of Noncompliance

1. The defendant shall not purchase, possess, use, distribute, or administer any controlled substance or any paraphernalia related to any controlled substance, except as prescribed by a physician.

Since starting this term of supervision, Mr. Vincent has tested positive for illegal substances on eight separate occasions. He tested positive for Methamphetamine on July 25, July 31, August 10, October 9, and December 4, 2012. He tested positive for Morphine on August 22 and October 29, 2012, and for both Methamphetamine and Morphine on August 24, 2012.

When questioned by the probation officer on July 25, 2012, Mr. Vincent admitted using Methamphetamine in the Putnam County Courthouse on July 23, 2012. He reported being there for failure to make a restitution payment within one month and he ran into a friend that offered him Methamphetamine. He reported using approximately .25 of a gram in the courthouse bathroom. Mr. Vincent reported he was offered the illegal drug and he chose to use it. He further stated that he only used it one time and had not been using since his release in May 2012. Further, Mr. Vincent stated that he did not have a problem, that he made a choice. He admitted that it was a "stupid" choice, but he would not use again, as "it isn't fun anymore." He was instructed by the probation officer to not use Methamphetamine or any other illegal substances.

When questioned by the probation officer on August 10, 2012, concerning his continued Methamphetamine use, Mr. Vincent admitted to using three to four times since his admission on July 25, 2012. He reported that he used when an opportunity presented itself, unsure of the exact dates, but his last use was three days prior on August 7, 2012. The probation officer asked how he is using and Mr. Vincent advised that he "shoots up" and proceeded to show the probation officer the track marks on his left arm. Mr. Vincent admitted that he had a problem and agreed to enter inpatient substance abuse treatment. He was, again, instructed by the probation officer to not use Methamphetamine or any other illegal substances.

Prior to his admission to the 28-day inpatient substance abuse treatment program at New Leaf Recovery Center in Cookeville, Tennessee, on August 28, 2012, Mr. Vincent tested positive for Morphine on August 22, 2012, and for Methamphetamine and Morphine on August 24, 2012. Mr. Vincent contacted the probation officer on September 10, 2012, while in the New Leaf Recovery Center, with plans of leaving the treatment program early because of a job opportunity. The probation officer confronted Mr. Vincent concerning his continued drug use before entering treatment and he admitted to using. He stated that he used Morphine and Methamphetamine because it was "available" to him at the time. The probation officer strongly advised Mr. Vincent to complete the inpatient treatment program and noted he would not be approved to leave early for an employment opportunity, as it was apparent that Mr. Vincent has a serious drug problem.

Mr. Vincent completed the inpatient substance abuse treatment program on September 25, 2012, and, again, tested positive for Methamphetamine on October 9, 2012. When confronted with this positive drug test result on October 15, 2012, Mr. Vincent admitted that he has been using almost daily since approximately October 1, 2012. He reported his last use was just two days prior on October 13, 2012, but that he has no intentions of using again. Mr. Vincent was asked how he could afford to buy the illegal substances and he reported that he is "known" in the Cookeville area as being knowledgeable with how to make Methamphetamine and his suppliers have given him the drugs in exchange for his "knowledge" in making the illegal substance. The probation officer asked Mr. Vincent if he is making the Methamphetamine and he denied making it, but admitted to giving advice to the suppliers on how to make it. Mr. Vincent further admitted that when he missed his drug tests on October 4, October 5, and October 10, 2012, he would have been positive for Methamphetamine and didn't see the point in reporting for the drug tests.

Since the last report to the Court on October 23, 2012, Mr. Vincent has tested positive, again, for illegal substances on two separate occasions. He tested positive for Morphine on October 29, 2012. On December 4, 2012, after being arrested on his federal warrant, Mr. Vincent tested positive for Methamphetamine. During the drug test, Mr. Vincent admitted to "shooting up" Methamphetamine on December 1, 2012, and Dilaudid on December 2, 2012. Additionally, he admitted to not staying in contact with his probation officer, specifically, not reporting his whereabouts or complying with treatment.

2. The defendant shall participate in a program of drug testing and substance abuse treatment at the direction of the United States Probation Office.

Mr. Vincent failed to report for drug testing and outpatient substance abuse treatment at Plateau Mental Health in Cookeville, Tennessee, on the following dates: October 4, October 8, and October 10, 2012. The probation officer was informed by Nathan Miller, Mr. Vincent's therapist at Plateau Mental Health, that Mr. Vincent was aware of all his appointments and random drug screens and failed to appear.

3. The defendant shall not associate with any persons engaged in criminal activity and shall not frequent places where illegal substances are sold, used, distributed, or administered.

On October 15, 2012, Mr. Vincent admitted to associating with the suppliers of the illegal substances he consumed. He reported giving "advice" to the suppliers in exchange for the Methamphetamine.

4. The defendant shall answer truthfully all inquiries by the probation officer and follow the instructions of the probation officer.

On October 5, 2012, Mr. Vincent was instructed by the probation officer to report to the Nashville office that same day at 10:00a.m. He failed to report, but left a message on the probation officer's voicemail reporting that his car broke down in Smith County and he would not be able to report.

When questioned by the probation officer on October 9, 2012, Mr. Vincent reported that he did have car trouble, but he could not provide a repair receipt to the probation officer as a friend reportedly went to pick him up. The probation officer inquired as to why his friend would go and pick him up in Carthage, Tennessee, but not go ahead and bring him to Nashville, as he knew that he had been instructed to report. Mr. Vincent stated that his friend did not get to him until after 4:30p.m. and he knew the probation office would be closed upon his late arrival. This is contradictory to what he told the probation officer on October 15, 2012. On that date, he reported that he knew he would be positive for Methamphetamine and did not want to report as he knew he would be drug tested.

5. The defendant shall pay restitution jointly and severally with his co-defendants at a minimum monthly rate of 10 percent of his gross monthly income.

Mr. Vincent has failed to make a payment towards the balance of his restitution since his release from incarceration on May 29, 2012. The current balance is \$57,795.40.

Compliance with Supervision Conditions and Prior Interventions:

Chad Vincent began his current term of supervised release on May 29, 2012, and he is due to terminate supervision on May 28, 2015. He is unemployed and his last known address was in Cookeville, Tennessee, with his mother and step-father.

After his initial release from custody in June 2010, he participated in outpatient substance abuse treatment at Plateau Mental Health Center in Cookeville, Tennessee, as recommended, from August 2010 to April 2011.

At that time, Mr. Vincent was using Methamphetamine and tested positive for the controlled substance on the following dates: March 29, April 5, and April 14, 2011. He was re-incarcerated in April 2011, due to mistakenly not fulfilling his entire custody sentence as ordered by the Court.

A report was submitted to the Court on August 7, 2012, regarding Mr. Vincent's positive drug test for Methamphetamine on July 25, 2012. The probation officer reprimanded Mr. Vincent for violating the conditions of his supervised release and re-instructed him to not purchase, use, or distribute any controlled substances. He admitted that he needed help and agreed to enter, and successfully complete, inpatient substance abuse treatment at New Leaf Recovery Center in Cookeville, Tennessee. The Court ordered no action on August 10, 2012.

Following his release from incarceration, Mr. Vincent was referred to Plateau Mental Health Center in Cookeville, Tennessee, for outpatient substance abuse treatment and random drug testing. He has failed to actively participate in individual treatment and random drug testing.

Update of Offender Characteristics:

On October 15, 2012, Mr. Vincent reported his mother and step-father kicked him out of their home, upon learning of his return to illegal drug use. During the probation officer's last contact with Mr. Vincent, he advised that he was sleeping in his vehicle, but planned to go to the Cookeville Rescue Mission. Prior to his arrest on the federal warrant on December 4, 2012, Mr. Vincent's whereabouts were unknown to the probation officer. He is currently in federal custody, pending his revocation hearing.

U.S. Probation Officer Recommendation:

It is respectfully requested that these additional violations be considered at a revocation hearing to be held before Your Honor on December 19, 2012. These new violations have been discussed with Assistant U.S. Attorney Trey Hester who concurs with the recommendation. Given that he has had an opportunity to benefit from inpatient substance abuse treatment and ongoing outpatient treatment, and he has continued to use Methamphetamine and Morphine, it is recommended that his supervised release be revoked.

This matter has been reported to the U.S. Attorney's office, who concurs with the recommendation.
